

Q

Try cloud.gov for free

Follow this guide to create an account and deploy a sample app in your own free sandbox.

1.

Get trial access and a free sandbox space

Federal employees and contractors with an email ending in .mil, .gov, or .fed.us can obtain a free sandbox space. To register, you'll need access to your email and a smartphone with Google Authenticator installed.

Get access

2.

Go build in your sandbox

Follow any of the tutorials to launch your own web application from your sandbox. You'll need your cloud.gov account and some familiarity with Windows Powershell or Mac/Linux terminal. Learn more about [sandbox spaces](#) and [sandbox limitations](#).

Set up cloud.gov

If you've run into any issues, please [contact support at cloud.gov](#). We're happy to help. You can also send us suggestions on [GitHub](#) or [via email](#).

Sample applications
